

Do you have a mild cognitive impairment  
(MCI) or Alzheimer's disease?

Are you interested in taking part in research  
that uses new technology?

If so, you may be suitable to take part in the  
CUBOld study, which is testing whether SPHERE  
technology is useful for diagnosing memory problems.

Ask your doctor about this opportunity or contact us:

Telephone: 0117 414 8238
